

## How to Create an Easy to Dis-Assemble Vision Board

Tape two or four sheets together for a wider area to work in like this:

Use one piece of tape on one side only, and do your vision boarding on the tape-less side. When you are finished with your board, gently cut the individual pages apart using a x-acto knife and insert them into your binder in order:

You could also keep the pages together, fold them accodian-style, and tuck them into one of your binder sleeves. Easy Peasy!
